Wow!

Business Structures Workshop & Training

Your Business Structure is the nucleus of your Dimensions platform—all configurations stem from the data housed here.

- Plan out your Business Structure
- Determine how to track employee time for work locations, scheduling, and payroll.
- Address Reporting/Scheduling/General Ledger needs
- Plan for Grants and Special Project tracking

This option is for migrating or net new UKG Dimensions customers.

Client-Side Project Manager or Application Consultant

Having an advocate and UKG expert during your migration can help you speed up and ease a complex process.

- Amplify your internal team's capabilities with either FT or PT expert Staff Augmentation for your Dimensions implementation*
- Expedite migration requests with UKG
- Alleviate Dimensions implementation hurdles
- Reduce implementation errors and costs
- Improve user training and adoption

This option is for migrating or net new UKG Dimensions customers.

UKG Dimensions Migration Assessment

A Dimensions Migration Assessment (DMA) addresses critical questions intrinsic to a successful migration from WFC to Dimensions.

- Build out your Business Structure
- Determine what configurations you want/need to move
- Address new functionality needs
- Assess risks to mitigate before the migration process begins

Improv Will:

- Analyze and understand your current UKG Workforce Central configurations and uses
- Review any manual processes
- Understand core functionality, pain points, and long-term business goals
- Help you set a migration path to Dimensions, including laying out your Business Structure and identifying the core system architecture needed on Day One of your migration

This option is only for companies migrating from UKG WFC to Dimensions.

Note: Business Structures Workshop & Training is part of this package.
